THE JOURNAL OF CELL BIOLOGY

VOL. 216, NO. 10, OCTOBER 2017

A large microscopy image showing a dense network of filopodia (fine, hair-like projections) in white and grey against a black background. Several cells are highlighted with blue circular overlays, showing their nuclei and internal structures. The overall appearance is that of a highly branched, interconnected cellular network.

Tools for Following Filopodia

Endosome Conversion by WDR91 in Neurons
Spatial Regulation of Meiotic Spindles by 14-3-3
